

Liberty Hill Fishing Team 2020-2021 Sponsorships

Greetings,

As a proud member of the Liberty Hill Fishing Team, I am reaching out to businesses and individuals to raise financial support for the team. This financial support will enable myself and my fellow teammates to experience the great sport of fishing. It will give us the opportunity to serve not only our community, but other communities as well, through travel to different tournaments where we can come alongside other organizations to raise awareness of our natural resources and through community service activities where we can create impact by serving others humbly.

Youth fishing teams have become an amazing way of allowing students such as myself to belong to a team where we can learn both competitive and leadership attributes. This sport has opened many doors for students in the past few years to further their education by obtaining scholarships for doing well at tournaments, and many colleges are now offering scholarship opportunities through their fishing teams.

This team was born out of a passion to allow students the opportunity to carry on a legacy and create traditions in their own lives that will hopefully be passed on for many generations to come. Thank you for your consideration of supporting our team and our mission to change lives both on and off the water.

Sincerely,
